

CITY FUNDED STREETLIGHT INSTALLATION APPLICATION

Applicant:		Date:
Address:		
Phone Number:	Email:	

When requested by this application, and approved by the City (based on funding and necessity), staff will facilitate the installation of streetlights in the following locations:

1. The light must be requested at one of the following locations:
 - a. An intersection
 - b. Mid-block when 600 feet from any other existing light
 - c. On a collector or arterial street (spacing at 300 feet)
2. The requested light will improve traffic safety for a specific road condition and/or safety related problem
3. The street light is at the end of a cul-de-sac. The cul-de-sac must be at least 300 feet in length to be considered for a street light.
4. Overhead or underground power must be present at the location the street light is requested.

Style:

Typically on minor residential streets and cul-de-sacs the City will install town and country style lights (see Section 6 of Street Light Policy). Collector streets in residential and commercial areas shall have Memphis Style fixture and post (see Section 6 of Street Light Policy). Where possible, cobra head lights may be attached to existing wooden utility poles. Town and Country street lights have a lumen brightness of 9,500. Memphis or similar styled lighting fixtures have a lumen brightness of 16,000.

Exact location requested: _____

Please state reason street light is being requested for this location:
