Neighbors, we need your help!!!

Since the expansion of the gravel pit, we have been unable to enjoy living in our home and it is seriously effecting our health. We are exhausted, and unable to enjoy peace and quiet in our own home. The continuous irritating noise, blowing dust and operating hours make it impossible to sleep past 5:30 a.m. when they begin work and often continues well into the night, seven days a week.

Even with double pane windows and our air conditioner on we are still awakened every morning by the startling sounds of boulders falling into a huge metal separating machine, conveyor belts which rumble like trains and the constant beeping of trucks backing up. Everyday a new layer of dust covers everything in our home and I've never seen any attempt of dust suppression at the gravel pit.

Because of the constant, irritating noise we have been unable to use or enjoy our backyard for BBQ's with family and friends this summer. We loved to spend evenings on our deck reading and enjoying the mountains, not this year, the noise is maddening. We are worried about the effects of the dust on our health and the health of children living in the area now and visiting grandchildren.

Like you, we paid extra for our home because of the views and location and always thought the value of our home would increase. To make matters worse, we have had realtors tell us we would have a very difficult time selling our home now because of the noise from the gravel pit. This could tremendously effect all of our property values. If the noise and dust does not bother you enough, think about not being able to sell your home.

We have spoken to Cottonwood Heights Mayor Cullimore and our City Councilman Tee W. Tyler and they were surprised this was a problem! Mayor Cullimore and Councilman Tyler need you to contact them to discuss your specific concerns regarding this issue and to determine how many homes are being impacted. PLEASE send an e-mail or make a phone call today, so together, we can demonstrate this is a significant issue. Together, we can find a solution and again have peace in our homes!

Mayor Cullimore said the gravel pit would continue operation for 10-13 years and continue moving east. As it continues east so will the noise and dirt and dust unless we act. Please get involved.
